

SDI Review Form 1.6

Journal Name:	Asian Journal of Chemical Sciences
Manuscript Number:	Ms_AJOCS_34744
Title of the Manuscript:	Antifungal activity of Mimosa pudica, Isolation and NMR Characterization of Bioactive Components
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	1. Millimeter must be abbreviated as mL.. not ml 2. Concentration unit should indicate amount of extract per volume of solution rather than only the weight of the extract. 3. When qualifying as "strong" the antifungal activity of the crude extract, include the basis or standard reference (which I have inserted after the tables). 4. Tables and Figures should follow the paragraph that they are supposed to summarize... and not the other way around. 5. I found many grammatical errors.	
Optional/General comments	Purple color indicates that the whole phrase/clause was just transferred to make the paragraph more coherent. Red color indicates revision. I did not bother reviewing the REFERENCES.	

Reviewer Details:

Name:	Lunesa Calijan-Pinzon
Department, University & Country	Department of Chemistry, MSU-Iligan Institute of Technology, Iligan City, Philippines
