

SDI Review Form 1.6

Journal Name:	Asian Journal of Chemical Sciences
Manuscript Number:	Ms_AJOCS_39216
Title of the Manuscript:	Solubility of Benzoic Acid in Six Alcohols within (288.15 to 336.15) K and Thermodynamic Properties in the Dissolution Process
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Values does not give the purity of the samples, purification should be done by analytical methods.	The purity of all materials such as benzoic acid and alcohols have been given in Table 1 and they are used in these experiments without further purification because the purity of all materials are larger than 99.5% wt.
Minor REVISION comments	The accuracy of thermometer and electronic balance should be mentioned in sign convention.	The accuracy of thermometer and electronic balance has been added in the revised manuscript.
Optional/General comments	(1) In the line 61 the details ----- literature (14 – 17) should be given after the procedure. (2) In the line 62 " it can be described in brief below " should be deleted.	(1) It has been revised in the revised manuscript. (2) " it can be described in brief below " has been deleted.
