

Journal Name:	Asian Journal of Chemical Sciences
Manuscript Number:	Ms_AJOCS_38877
Title of the Manuscript:	Synthesis and characterization of ammonium ionic liquids and their antimicrobial and computational overview
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	More literature reviews should be added in the Introduction. Some relevant important works should be discussed in the paper, such as: (2018). Progress in enhancement of CO2 absorption by nanofluids: A mini review of mechanisms and current status. <i>Renewable Energy</i> , 118, 527-535.	
Optional/General comments	This paper reports the synthesis and characterization of ammonium ionic liquies and their related overviews. The results look quite promising and impressive. This paper is interesting and suitable for the journal. Therefore, I recommend that it can be accepted after a minor revision.
