

SDI Review Form 1.6

Journal Name:	Asian Journal of Physical and Chemical Sciences
Manuscript Number:	Ms_AJOPACS_38037
Title of the Manuscript:	PROXIMATE COMPOSITION OF JATROPHA CURCAS LEAVES, PHYTOCHEMICAL AND ANTIBACTERIAL ANALYSIS OF ITS ETHYLACETATE FRACTION
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. The manuscript can be shorten by skipped these well known parts; PREPARATION OF CULTURE MEDIA and INOCULATION AND INCUBATION. 2. How were fresh leaves of <i>Jatropha curcas</i> collected? Were they randomly collected from a wide field? Or they were collected from various locations? 3. How many were fresh leaves of <i>Jatropha curcas</i> collected? 4. From lines 221 to 224, can you explain why your results were different from the previous report? 5. From line 251, it is not true that steroid has antibacterial properties. 6. Are there any differences between hot and cold extraction? 7. The detected photochemical compounds also have toxic effects if taken improperly. This fact should be warned as well. 	
Minor REVISION comments		
Optional/General comments
