

SDI Review Form 1.6

Journal Name:	Asian Journal of Physical and Chemical Sciences
Manuscript Number:	Ms_AJOPACS_40509
Title of the Manuscript:	riemannian velocity and acceleration tensors/vectors in rotational oblate spheroidal coordinates based upon the great metric tensor
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The author(s) has presented the Riemannian vector and acceleration tensor/vector in rotational oblate Spheroidal coordinates, which has application in physics and other related fields. This helpful for expressing Riemannian Dynamical laws of motion. Thus I hope this article will achieve a greater audience among the researchers.</p> <p>.</p>	Ok noted.
Minor REVISION comments	<p>This article may be accepted after the following modification.</p> <ol style="list-style-type: none">1. More literature survey is need on the introduction part of the article So that one can easily correlate between the concepts provided in the article.2. Author(s) should present more content about great matric tensor (In the appendix) and how it is different from metric tensor.3. In title “r” should be capital. Kindly look at this type of small things in the manuscript.	
Optional/General comments
