

**SDI Review Form 1.6**

Journal Name:	<a href="#">Asian Journal of Physical and Chemical Sciences</a>
Manuscript Number:	Ms_AJOPACS_40509
Title of the Manuscript:	riemannian velocity and acceleration tensors/vectors in rotational oblate spheroidal coordinates based upon the great metric tensor
Type of the Article	

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The author(s) has presented the Riemannian vector and acceleration tensor/vector in rotational oblate Spheroidal coordinates, which has application in physics and other related fields. This helpful for expressing Riemannian Dynamical laws of motion. Thus I hope this article will achieve a greater audience among the researchers.  .	
<b>Minor</b> REVISION comments	This article may be accepted after the following modification.  <ol style="list-style-type: none"> <li>1. More literature survey is need on the introduction part of the article So that one can easily correlate between the concepts provided in the article.</li> <li>2. Author(s) should present more content about great matric tensor (In the appendix) and how it is different from metric tensor.</li> <li>3. In title "r" should be capital. Kindly look at this type of small things in the manuscript.</li> </ol>	
<b>Optional/General</b> comments		

**Reviewer Details:**
