

Journal Name:	Asian Journal of Research and Reports in Neurology
Manuscript Number:	Ms_AJORRIN_41173
Title of the Manuscript:	The Bender Gestalt II- An Underutilized Tool in Brief Neurological Screening
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This article is potentially valid for publication, however, despite the authors' intent to provide a quick review of the history, current and future uses of this neuro-psychological test, the work is unclear in its expression.	Ok noted.
<u>Minor</u> REVISION comments	the abbreviation << BGT-II >> in line 89 is used for the first and only time; although its meaning is obvious, it is common to use and explain the abbreviations, possibly in the section dedicated to the introduction (not in the abstract), also in order to reduce the extension of the manuscript.	
<u>Optional/General</u> comments
