Type of the Article	Original research papers

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	The reference part should be changed as per Author guidelines. Please mention the blood collection techniques and dose selection clearly in acute toxicity studies. Some typological errors should be avoided, You can write the discussion and conclusion part by compiling all the findings in the study, its benefits with future scope without writing it under separate topics.	Reference rechecked as pointed out. Detailed statement on blood sample collection has been added. Check section on "Sample Collection" as highlighted in yellow. All other raised points were noted, rechecked and appropriately corrected.
Optional/General comments	The manuscript level is appropriate for the readers. This manuscript fulfills all questions which normally have in mind.	Thank you.

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
