SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. The lateral knee radiograph is of poor quality (please replace)2. Authors did not describe the clinical phenotype of the patient (height, weight, craniofacial features, scoliosis, history of fractures..etc.). OS disease with spontaneous avulsion might be secondary to a connective tissue disorder (heritable type) (genetically programmed)3. Authors need to clarify the previous point4. Authors claim, that this is the first case report of OS disease in a 49 –years-old-patient(Al Kaissi et al described Osteochondritis dissecans and Osgood Schlatter disease in a family with Stickler syndrome-Ped Rheumatology 2009:4)	
Minor REVISION comments		
Optional/General comments
