General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	- Page 3, line 90, 3 should be removed and change all section number accordingly. - In simulations, for large value of sample size i.e n=120 results shows NAN and infinity, please add this limitation in in the conclusion. As sample size increases the results not valid in case of estimators and posterior risks. - The results are simple and straight forward, no new technique will be implemented. - Add real life example to justify the results of simulation.	All corrections have been effected accordingly. Also the suggestions have been incorporated.
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	Please clarify the ethical issue if any.	NO
