**PART 1: Review Comments**

|                                     | Reviewer's comment                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)                                                                                                                                                                                           |
|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compulsory</b> REVISION comments | <b>1. Title is not précised. It should be ..... A NEW GENERALIZED TRANSMUTED INVERSE EXPONENTIAL DISTRIBUTION.....</b><br><b>2. Abstract is ok.</b><br><b>3. Key words should be written alphabetically. Keywords should be 4-6.</b><br><b>4. Introduction part is OK.</b><br><b>5. Equation numbers should be written section-wise, such as 1.1,1.2,.....2.1,2.2,...3.1, 3.2, .....etc.</b><br><b>6. figure numbers should be written as section wise, such as 1.1,1.2,.....2.1,2.2,.....etc.</b><br><b>7. Table numbers should be given section-wise, such as 1.1,1.2,.....2.1,2.2,.....etc.</b><br><b>8. In order to do satisfactory studies compare this distribution with other well known distributions.</b><br><b>9. Conclusion part is OK.</b><br><b>10. References should be written alphabetically....i.e. from names of author.....</b> | 1) I am grateful to the reviewer for the comments.<br>2) Comment 1 has been taken note of and the suggestion has been effected in the revised manuscript<br>3) For comments 3, 5, 6,7 and 10, the author looked at papers published in Asian Journal of Probability and Statistics to arrange sections, equations, tables and figures in this manuscript.<br><br>Thanks |
| <b>Minor</b> REVISION comments      | Pay attention towards English Grammar                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Noted                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Optional/General</b> comments    | Nil                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                         |

**PART 2:**

|                                                     | Reviewer's comment                                                    | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-----------------------------------------------------|-----------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Are there ethical issues in this manuscript?</b> | (If yes, Kindly please write down the ethical issues here in details) |                                                                                                                                                                               |

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
