

Editor's Comment:

I looked the files attentively. I investigated the paper, reviewer comments & author replies and revised manuscript.

My comments as an editor:

The paper is dedicated to the measurements of magnetic field intensity within Captain Elechi Amadi Polytechnic, Rumuola. The handheld Bentech (GM-3120) Model Electromagnetic Radiation Metre was used in measurements for 6 sampled locations. The locations were determined with a device of GPS. The results of these measurements were given and discussed.

This paper deserves to be published in Asian Journal of Research and Reviews in Physics. As an editor, I recommend that this paper be published for the following reasons, in its revised form.

- Professors Mohamed Ahmed El-Sadek and Medhat Moustafa, as reviewers, advised minor revisions.
- It is corrected according to the reviewers' comment.
- The manuscript is well organized after revision.

Editor's Details:

Dr. Huseyin Cavus
Associate Professor, Department of Physics, Canakkale Onsekiz Mart University, Turkey
