

SDI Review Form 1.6

Journal Name:	Asian Journal of Research and Review in Physics
Manuscript Number:	Ms_AJR2P_40871
Title of the Manuscript:	Exact solutions of the generalized KP-BBM equation by the G'/G-expansion method and the first integral method
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	In this work, the authors studied the generalized KP-BBM equation by using the G'/G -expansion method and the first integral method. Under some parametric conditions, the authors obtained the rational solutions, the periodic solutions and the hyperbolic function solutions for the generalized KP-BBM equation. The results obtained are interesting, the methods used are useful for other researchers. The paper is written well, so I would like to recommend the paper for publication.	We are very grateful to you for your positive comments.
