

SDI Review Form 1.6

Journal Name:	Asian Journal of Research and Review in Physics
Manuscript Number:	Ms_AJR2P_41005
Title of the Manuscript:	The Relativistic Synchrotron Radiation in the Frame of the Moving Particle
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Absent	
<u>Minor</u> REVISION comments	Absent	
<u>Optional/General</u> comments	There are many synchrotron radiation sources all over the world, which are large installations. There is also one in Centre for Advanced Technology, Indore, India. Relativistic effects influence synchrotron radiation source. Such general theoretical studies on various aspects (creation of vacuum, optics, material property etc) are needed to supplement the experimental functioning of such installations and the paper can be accepted.	Added section 5 to address the practical issues.
