PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The article is well organized and structured except for the results that were not discussed. The title clearly describes the article and the abstract clearly reflect the content of the article.	
Minor REVISION comments	The paper has nicely written Introduction and Related work sections, which clearly outlined the aims and contributions of the proposed work	
Optional/General comments	Results were not discussed. When discussing results in research articles, the claims should be supported by the results by making comparisons between author's findings with previously published research findings in the literature. So we expect to see citation of references in the discussion section.
