

Editor's Comment:

Having regard to the outcomes of the review process, I recommend accepting the paper 2018_AJRAF_39550 "*Comparative Evaluation of Organic and Inorganic Fertilizers on the Growth of Deinbolia pinnata Schum. & Thonn seedlings: An underutilised Multipurpose Species*" for publication as an original research article.

However, I think that the title should be modified to make it clear that the evaluation regards the effect of fertilisers and the clause "An underutilised multipurpose species" refers to *Deinbolia pinnata* not its seedlings. Therefore, a tentative title can be "*Comparative Evaluation of the effect of organic and inorganic fertilizers on the growth of the seedlings of Deinbolia pinnata Schum. & Thonn: An underutilised multipurpose species*".
