

Editor's comments:

There is a difference between genus and species; this had been repeated along the text. In Botany as in Forestry, scientific names must be completely written. The authors must review the use of the term frequency. There is some confusion to be clarified as that term.

Author's feedback:

All Editors' comments were noted and corrected as showed below:

1. **Abstract-** *Rauvolfia mitoria*, *Sterculia setigera*
2. **Result-** line 105, 106 and 107
3. **Table 2:** *Acacia Senegal*; *Psychotria microphylla*; *Terminalia irvorensis*; *Terminalia irvorensis*; *Ziziphus mauritiana*
