

**SDI Review Form 1.6**

Journal Name:	<a href="#">Asian Journal of Research in Agriculture and Forestry</a>
Manuscript Number:	Ms_AJRAF_42469
Title of the Manuscript:	Development of triploid varieties of Hevea brasiliensis using endosperm
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	The authors reported their novel study in Callus induction, especially in Triploid nature of endosperm callus (3n =54). These works have merits in "isolation, culture and division of protoplasts from endosperm tissue of Hevea brasiliensis" and "Triploid nature of endosperm callus (3n =54) was obtained". I recommend accept this MS for publication in AJRAF.	Thank you for your kind comments
