General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Besides the many comments highlighted yellow in sticky notes which must be corrected, the author must ensure all tables and figures given must be mentioned somewhere in the text. Many values were given in parts of the texts but not seen or shown anywhere in the tables. The author must also try to avoid repetition – for example what is mentioned under 3.0 should not be repeated in 4.0; the author needs to ensure this is done before the manuscript can be accepted for publication.	All the points highlighted and stated here have being addressed.
Minor REVISION comments		
Optional/General comments
