

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Asian Journal of Research in Agriculture and Forestry
Manuscript Number:	Ms_AJRAF_42853
Title of the Manuscript:	CONSTRAINTS TO AGRICULTURAL PRODUCTIVITY IN KAINJI LAKE NATIONAL PARK, NIGERIA
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>The abstract is still very weak</p> <p>The problem statement is still not sharp and not convincing</p> <p>It is silent on the crop</p> <p>The methodology is not flowing and model not properly specified. I don't think is a suitable model for identifying production constraints. What is a constraint in this work? it is not well defined. Some of the variables have a negative relationship and others have a positive relationship.</p> <p>What is the independent variable?</p>	<p>The crop cultivated has been added to line 23 – 24.</p> <p>Line 25 – 29 has been modified to address the problem statement.</p> <p>Line 41-43 has been added to define constraint</p> <p>Line 172-178 has earlier explained the constraint in this work</p> <p>Line 126-128 earlier described the dependents and independent variables</p>
