SDI Review Form 1.6

**PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Article is scientific and informative. Introduction was optimal written. Material and methods is correct used. Results and discussion is good implemented from results. Literature was correctly used.	
<b>Minor</b> REVISION comments	<p>I suggest: If used ordinal number as like 1st, always used the obligatory apostrophe (1<sup>st</sup>) (line 68 this article)</p> <p>Material and method: Missing measuring instruments to which it was measured of the crown, trunk and morphological parameters from leaf and fruit and units of measurement as like SI unit systems.</p> <p>Table 2 and 3: After the table I suggest kick out text with abbreviations for measurement parameters. Abbreviations is written in section material and methods.</p> <p>Author was measurement the "height of the plant (Hpl), the diameter of the trun (Dbh), the height of the 1st basal branching with respect to the soil (Hpr) and ..... " section material and method.</p> <p>In table was written "Hpl: plant height; Hpr: height crown; Dbh: trunk diameter....." I suggest needed is harmonize parameters which is measured.</p> <p>This article don't used genetical modifications plants, Research don't use in military and don't having the potential for terrorist abuse.</p> <p>Research don't proposed research involve processing of genetic information or personal data (e.g. health, sexual lifestyle, ethnicity, political opinion, religious or philosophical conviction)?</p>	
<b>Optional/General</b> comments	I suggest: Publishing this article in yours journal after minor revision
