PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. I suggest the topic should include "soil" not only seed bank since you were silent on other types of seed banks but focussed on the role of soil seed banks. Check the manuscript and make these corrections if possible 2. Line 41 "asides" should be "aside" 3. Line 112-115 FAO (no reference provided). Please indicate the reference 4. Line 203-215: You provided no reference and what is the authority backing those sentences. 5. Is literature exhausted with only the Porto Trombetas, Brazil example? Can you provide any other successful regeneration activity through soil seed bank?	
Minor REVISION comments	1. Please, your reference style in the manuscript deviates from the Journal requirements. You need to use numbers in parenthesis eg. {1, 2, 3, 4} in the text for the references you cite and chronologically list them in the reference list. Please refer to the SDI author's instructions. The following references are in the text but not in the list of references. a. Higgins <i>et al.</i>, 2003 b. Newmaster <i>et al.</i>, 2006 c. Mohammed and Hussein, 2008 d. Anon, 2010 e. Uasuf <i>et al.</i>, 2010	
Optional/General comments	Well-written review paper on soil seed bank and forest regeneration. Authors need to make the above corrections for publication in your reputable journal.	

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
