PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Why the authors measured "The temperature humidity index (THI) inside the poultry house during the experimental period for 126 mornings and afternoons". And how it helps their results? It should be removed.	Noted. It helps to explain that relying on environmental factors like temperature does not create a continuous state of chronic stress which was desired, hence the need to induce with dexamethasone. We had a control group to monitor that effect.
<u>Minor</u> REVISION comments	It needs to be checked for plagiarism	Noted.
<u>Optional/General</u> comments	Generally this research is simple
