

**SDI Review Form 1.6**

Journal Name:	<a href="#">Asian Journal of Research in Animal and Veterinary Sciences</a>
Manuscript Number:	Ms_AJRAVS_41092
Title of the Manuscript:	Haematological and serum biochemical indices of broiler chickens fed varying dietary levels of Sundried cassava (Manihot esculenta) peel meal supplemented with enzyme (MAXIGRAIN).
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>In abstract:inclusion of maxigrain enzyme level can be indicated In introduction, role of maxigrain enzyme can be indicated... In experimental diets:the standard on which basis feed is formulated should be indicated In table 2... it is indicated as inclusion level as 25% instead of 20%.....</p> <p>Instead of calculated analysis, chemical composition of the diets can be indicated....</p> <p>In haematological and serum biochemical studies, indicate at what stage the blood was collected... how many birds were selected for blood collection.....</p> <p>Whether metabolism trail is conducted .... If conducted the procedure can be indicated.. and procedure also can be indicated....</p>	NOTED
<b>Minor</b> REVISION comments	Overall spellings can be checked & in tables, check the inclusion levels....	
<b>Optional/General</b> comments	Whether cyanide content is measured in the meal .....can be indicated...
