

SDI Review Form 1.6

Journal Name:	Asian Journal of Research in Biochemistry
Manuscript Number:	Ms_AJRB_43243
Title of the Manuscript:	High-level expression and purification of DNA and DNase free Taq DNA polymerase
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	While I like the approach of the study and appreciate the care with which it was performed, I have several reservations. Based on both extensive stability and efficiency of target, it may be improved and discussed.	We have stored the protein at 4°C for last one year and it is working well. We have not shown the storage stability data in the manuscript. Regarding the efficiency a line has been included 321-323.
