

SDI Review Form 1.6

Journal Name:	Asian Journal of Research in Computer Science
Manuscript Number:	Ms_AJRCOS_41838
Title of the Manuscript:	CREATION OF CONNECTED WORD SPEECH CORPUS FOR BANGLA SPEECH RECOGNITION SYSTEMS
Type of the Article	Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Recognition of Bangla speech by using real-time data and probabilistic models is a good topic to research upon. The abstract, presentation of the topic, data and results is fine. The mention of references is appropriate and the paper is likely to be cited in future. As a future enhancement, the authors could go a bit more deeply and try to recognise more words, genuine or fake and that would stand out to be an excellent topic.	
<u>Minor</u> REVISION comments	In the presentation area, the English used is to be updated slightly. The authors should not use words like I, WE, YOU etc. The addressing should be to a third-party.	
<u>Optional/General</u> comments	NONE
