PART 2:

FINAL EVALUATOR'S comments on revised paper **(if any)**	Authors' response to final evaluator's comments
Based on the revised version of this manuscript, it was evident that author(s) have attended to some salient issues raised in the original manuscript. Moreover, some were not given a second look. These include; the description of the study area, comparing the study findings with previously existing studies in the literature. Author(s) may also need to give the meaning of the acronyms of the blocks (figures2-7) presented in the figures in the his manuscript. Also, the sources of data presented in the table2-7 may be added at the bottom of each table. In Figure 8-12, author(s) may also need to add the source at the bottom of each figure presented. The section, result discussion and conclusion may need to be given separate headings like Results and Discussion, Conclusion and Recommendations. Author(s) may need to treat them on separately and making sure that recommendations enamating from this study's finding are added with the conclusion. **When these are reasonably attended to, the manuscript may be forwarded to the editor(s) concerning decision on manuscript publication.**
