

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Asian Journal of Research in Crop Science
Manuscript Number:	Ms_AJRCS_43142
Title of the Manuscript:	Phytochemical properties and antimicrobial activities of Turmeric plant extract
New Title of the Manuscript:	Phytochemical properties and antimicrobial activities of aqueous Extract of Curcuma longa (Turmeric) rhizome extract
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Dear Editor, as I feel author did not adjust all the comments raised by the reviewer. Even the way of writing H ₂ SO ₄ was not corrected (in 3.4.3). I think it is better to re read the manuscript by the author and do all the corrections. Even in some sub titles some letters are missing. There was a suggestion to adjust the conclusion but not even a response to this point. It would be good if the author could answer to the comments raised by the reviewer. In general the article flow is fine but need improvements for keeping the journal status.
