General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	None None (revision review)	None
<u>Minor</u> REVISION comments	None None(revision review)	
<u>Optional/General</u> comments	In general, the current manuscript described the survey in extremely detailed. Authors also provided the high quality discussion. In my opinion, in the conclusions and implications part, authors can think about to describe the more deeper useful suggestions in clinical aspects. Thus, these will further improve the clinical significance of the manuscript. The authors had been modified and improved the quality of manuscript. (revision review)
