Title of the Manuscript:	CLINICAL FEATURES OF DENGUE INFECTION IN HOSPITAL FOR TROPICAL DISEASES, THAILAND
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The references are stated in the article not in a order, please number the references according to the order they appear in the article from introduction onwards. (I understand the references are ordered alphabetically, if this is the journal policy then that's fine)	
Minor REVISION comments	Line 16 – no need of proportions, only percentages are enough Line 93 – what lab method was used to do the serology in this study, it would be better if the method and the analyser is mentioned in the methods section.	
Optional/General comments	Good article	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
