General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<ol style="list-style-type: none"> Sample size too small (35). Gram stain does not use lugols' iodine but Gram's Iodine. What about the status (percentage) of MRSA in <i>S. aureus</i> isolates? Brand names of antibiotics have been written; instead please write their generic names. 	Thank you sir for your observations. They are well noted. MRSA was not investigated during the course of this study. Thank you sir. All other corrections has been effected.
<u>Minor</u> REVISION comments	-----	
<u>Optional/General</u> comments	Some grammar corrections needed overall
