PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Feedback is a very important issue we should to make research about as you mentioned. What statistical methods used was not mentioned. After material and methods section results should be shown as tables to understand easily. The answers as percentages the used statistical analysis must be in the article. The discussion also is not discussing the results with the literature. It seems to be a part of introduction. So there is a need to make major revisions.	All the corrections suggested are done
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
