PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	Quite interesting manuscript describing the effect of FCO in the diabetic rat model. However before consider for publication better revised some minor comment as shown in the attached file.	Comments have been effected as raised in attached file
<u>Optional/General</u> comments	Overall the structure of this manuscript more like thesis style rather than standard scientific paper. Especially in writing the objective section, material and recommendation. If possible follow the structure of standard paper will better more appropriate.	Noted. Thanks.
