General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Quite interesting manuscript describing the effect of FCO in the diabetic rat model. However before consider for publication better revised some minor comment as shown in the attached file.	
Optional/General comments	Overall the structure of this manuscript more like thesis style rather than standard scientific paper. Especially in writing the objective section, material and recommendation. If possible follow the structure of standard paper will better more appropriate.
