| Journal Name: | Asian Journal of Research in Medical and Pharmaceutical Sciences |
| Manuscript Number: | Ms_AJRIMPS_38681 |
| Title of the Manuscript: | Effectiveness of traditional medicinal vegetables (ulam) against pathogenic microorganisms –A review |
| Type of the Article | Review Paper |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

| | Reviewer's comment | Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i> |
|--|--|--|
| <u>Compulsory</u> REVISION comments | I would like to congratulate the authors for the quality of the structuring of the bibliographic review. Although there is no in vivo experiment, the article will serve as a guide for future authors to use elements of the biosphere to achieve equilibrium in a sustainable way. As a challenge, I suggest to the authors a meta-analysis in vivo to make science. | |
| <u>Minor</u> REVISION comments | | |
| <u>Optional/General</u> comments | | |
