General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Heading must contain "A case of...". The uniqueness of the case should also be stated in the heading Need to strongly state the uniqueness of this specific case Some important negatives are missing in the history and examination Must indicate the date of the blood chemistry Avoid giving options of management while describing the case and leave it to the discussion Type, dose, frequency of medications must be stated clearly The discussion must not be generic. It must be redone in context to this patient/case	
Minor REVISION comments	Avoid unnecessary capitalization of English words within sentences. Sentence rephrasing to be done, see revised file Abbreviations should be inline. Not as a sub-heading at the end	
Optional/General comments
