**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>The authors present a case of a patient with lithiasis in the lower calyceal pole of the right kidney. A mini PCNL was performed and the patient developed an Abdominal Compartment Syndrome. It was not clear if the patient became stone free. English in the text needs to be improved.</b>	I am grateful for the suggestions. The patient was stone free at the end of procedure. Grammatical errors have been rectified.
<b>Minor</b> REVISION comments	The authors present a case of a patient with lithiasis in the lower calyceal pole of the right kidney. A mini PCNL was performed and the patient developed an Abdominal Compartment Syndrome. It was not clear if the patient became stone free. English in the text needs to be improved.	I am grateful for the suggestions. The patient was stone free at the end of procedure. Grammatical errors have been rectified.
<b>Optional/General</b> comments
