

Editor's Comment:

Line 50. Please number the objectives.

Conclusion please conclude based on the objectives. did the result research questions?

The title is not in tune with the objective of the paper

The Abstract cannot stand alone as presented. No quantitative data were presented to justify the conclusion

The Introduction did not highlight the justifications for the study

The Materials and methods lack the required details

The results and discussion cannot stand if subjected to rigorous scientific scrutiny

The paper is generally poorly written
