

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Asian Journal of Soil Science and Plant Nutrition
Manuscript Number:	Ms_AJSSPN_36882
Title of the Manuscript:	Effect of micronutrients application of soil properties and soil nutrient content of sapota cv. Kalipatti under HDP system
New title:	Effect of micronutrients application on soil properties of sapota cv. Kalipatti under high density planting
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
I gave me some efforts to re-control authors' final text, because there were disturbed formatting, spelling errors, type-errors, double-spaces, etc. Only issue authors didn't answered properly was about "Walkey and Black's wet oxidation method" origin (in my comment I assumed that is from the same reference as other analyses, i.e. Black, 1965, but, it is not confirmed in reviewed text).	Thanking you for giving voluble suggestions.
