

SDI Review Form 1.6

Journal Name:	Asian Journal of Soil Science and Plant Nutrition
Manuscript Number:	Ms_AJSSPN_35624
Title of the Manuscript:	ASSESSMENT OF THE MICROBIAL POPULATIONS AND PHYSICOCHEMICAL COMPONENTS OF PARAQUAT TREATED SOIL
Type of the Article	Original Research Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Abstract: Author abstract should include data for the results of findings. Author should highlight the type of effect observed on microbes in the course of the research. At least one recommendation should be made Beef up your abstract please. Sample collection: Author should specify the sampling method. One sample cannot suffice for a sampling point. Results and Discussion: Author should merge the results and discussion to avoid unnecessary repetitions. Author should provide raw data from the study for microbial counts, organic carbon, organic matter and pH in a tabular form. Author should state the statistical method used in analysing the data. Author should provide The Characterization table for the various isolates obtained.	
Minor REVISION comments	Sample Collection: Author should state how samples were collected and preserved for microbial analyses. Author should add comma (,) after <i>et al.</i> Author should effect all corrections highlighted throughout the work. Reference: Author should effect the necessary corrections in the reference section and add web page if online.	
Optional/General comments	Display of Some data in charts could spice up the work
