

SDI Review Form 1.6

Journal Name:	Asian Journal of Soil Science and Plant Nutrition
Manuscript Number:	Ms_AJSSPN_37538
Title of the Manuscript:	Effect of Algae and Urea on Soil Nutrient Status and Yield of Amarathus (Amaranthus Cruentus) in an Ultisol of Southeastern Nigeria
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment The paper is important for a more rational and sustainable management of fertilizers	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The paper lacks hypothesis and objectives. The materials and methods are very well developed and are very explicit. The analysis of the results is adequate and well presented. The inclusion of letters in the results of the tables that indicate the significant differences would help to visualize the results more easily The conclusions are clear and precise and are consistent with the results obtained.	
Minor REVISION comments	Minor modifications in the presentation of the results, such as letters or symbols that indicate significant differences, would improve the quality of the paper.	
Optional/General comments
