

**SDI Review Form 1.6**

Journal Name:	<a href="#">Asian Journal of Soil Science and Plant Nutrition</a>
Manuscript Number:	Ms_AJSSPN_42273
Title of the Manuscript:	Growth Performance and Yield Response of Sweetcorn as Influenced by Fertilizer Application Grown Under Bukidnon, Philippines Condition
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"> <li>1. The abstract should be in integrity. Details given in material and method section.</li> <li>2. Introduction is very short. The properties of fertilizers and the effects on plant development should be explained in the introduction part.</li> <li>3. Soil analysis results of the experimental area should be given in material and method section not results and discussion.</li> <li>4. Table 1 should be in material and method section.</li> <li>5. Trial design and application should be given descriptive manner in the material and method section.</li> <li>6. The contents of fertilizers (especially vermicompost) and their application forms must be clearly stated in the material and method section.</li> <li>7. Results and discussion part should be more descriptive.</li> </ol>	<ol style="list-style-type: none"> <li>1. The abstract was revised.</li> <li>2. Additional explanation was incorporated in the introduction pertaining to the properties of fertilizers and its effects on plant development.</li> <li>3. Soil analysis results of the experimental area were transferred in materials and method section.</li> <li>4. Table 1 was transferred in material and method section.</li> <li>5. Trial design and treatments were given in the materials and methods section.</li> <li>6. Chemical assay of vermicompost is well presented in the materials and method.</li> <li>7. Results and discussions were improved.</li> </ol>
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	<p>Subject is good. Material and method part should be more descriptive. The amount of data presented is sufficient, the statistical treatment and calculations would appear adequate. The tables are appropriate but results and discussion part should be more descriptive. Results and discussion and Conclusions should be extended. After the above correction are made, manuscript is able to publishing in <a href="#">Asian Journal of Soil Science and Plant Nutrition</a> SCIENCEDOMAIN</p>
