SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1. Discuss one or two theories that explain the relationship between public debt and economic growth in the theoretical review 2. Be consistent with the tense form used in writing the empirical literature. I see a mixture of past tense (line 142) and present tense (line 165 and 168) just to mention a few. Maintain one tense form throughout.	
<u>Minor</u> REVISION comments	1. The first sentence of the introduction is too long and ambiguous. Consider revising it. 2. Check the punctuation of the sentences and try to use simple sentences as much as possible 3. Proof-read to correct notable grammatical errors. Line 46 – domestic debt has increased instead of domestic debt is to increased. Line 51 – dwindling economy instead of dwindling economies. Line 53- reliance on borrowing instead of reliance in borrowing	
<u>Optional/General</u> comments	Generally a very good article.
