PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The net farm income equation should be reviewed. The minus (-) sign was omitted in it. Also, the literature should be updated. The conclusion has a very serious issue to be addressed. It seems the researcher was doing copy and paste from another work. This study was on cocoyam and conclusion was on okro farming (see lines 356 and 357).	Corrected
<u>Minor</u> REVISION comments	Lines 197 to 201 were not clear. There was poor sentence construction.	Corrected
<u>Optional/General</u> comments
