SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Line 117: if possible, please add the entire questionnaire as an appendix Line 140: I know y represents a latent unobservable variable, I think you still need to indicate what y really mean, especially when $y=1$ and $y=0$ Line 143 – 147: I think if you can add a descriptive statistics table here, which will explain each variable much better. Not just like Table 1, at least, you need to show what “$x=1$” mean.	
<u>Minor</u> REVISION comments	Line 13: There is a repeated “causes of rural and urban migration” Line 105 & 106: the author can just write the number there (157,072 & 378), no need to spell all out.	
<u>Optional/General</u> comments
