PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	As a reviewer I have the following comments: 1. "Lenin, a close associate of Marx in China (2014)" – are you sure? 2. In the presented paper it's difficult to find systematic scientific approach - we may see this work as an essay. 3. Many theses are disputable: imagine such paper on the equation $1+1=2$. Russell proved this using axioms. We now it's true.	
Optional/General comments
