SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The more discussion is encouraged in this work. The rigorous journal is encouraged be cited in the future work.	The "Discussion" part was formed. Line312-326 DISCUSSION Although positive correlations were found between social entrepreneurship and innovativeness in parallel to the findings obtained by Gür et al [19], more significant correlations were remarkable between social entrepreneurship, personal and social properties and managerial qualities. In addition to that, risk-taking and innovativeness properties of social entrepreneurs were also in parallel to the ones reported in the literature. Male students were found to have higher levels of social entrepreneurship than female students. This was a finding inconsistent with the one obtained by Ryzin et al [13]. Despite this, the finding was consistent with the statement that younger individuals had higher levels of social entrepreneurship. In conclusion, entrepreneurship, which is the backbone of national economy, is measured not only financially but also with social benefits that society feels. Social entrepreneurship, on the other hand, is a theory of entrepreneurship which supports moral and social awareness

		and which can be called social change by means of innovative ideas. Therefore, supporting social entrepreneurship among students is necessary for increasing the degree to which they participate in the development of national economy [23]. The importance of the article is mentioned for the future studies. Line143 This study is important in that students' levels of social entrepreneurship have not been studied according to gender, age, the number of brothers and sisters and father and mother's occupation and from the aspect of personal-social properties, innovativeness and managerial qualities before.
