PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The topic of this study is very interesting and meaningful. But unfortunately, 1. The theoretical basis of the literature study is not deep enough; the results of the analysis and the literature are different. 2. The design of the study is unclear, the sources of the data are unknown, and the reliability and representativeness of the data are not known, leading to the inability to deduce the results of the study to the whole tourism industry. 3. Analysis of how the results have not seen, but no supporting data. 4. Methodological design based on case studies is not rigorous enough to lose the value of research.	
<u>Minor</u> REVISION comments
