<u>Compulsory</u> REVISION comments	I appreciate the opportunity accorded to review this work and the energy which the researcher has put into the work. However, the paper is not recommended for publication due to the following flaws: 1. The introduction lacks gaps in knowledge and I wonder where the researcher derives his hypotheses from. 2. The objectives of the study are not indicated towards the end of the work 3. The paper is poorly organised. 4. The literature review fails to indicate the relationship between HEALTHCARE MANAGEMENT FOCUSED and SOCIAL ENTREPRENEURSHIP. 5. The author lacks the knowledge required to conduct methodology thus, no design is showing in the work, so also the study population and sample size. Information on the instrument used to conduct is shrouded in mystery likewise procedure for data collection, reliability and validity of instrument etc.
