

SDI Review Form 1.6

Journal Name:	Asian Research Journal of Arts & Social Sciences
Manuscript Number:	Ms_ARJASS_37142
Title of the Manuscript:	Factors Responsible for the Current Contraception of Prominent Ethnic Communities of Sylhet District, Bangladesh
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Author(s) should write briefly the random sampling procurer, with p, q and N and Z value. Logistic regression model is not clearly visible, author should write it in Microsoft Word. If any cell, there is less than 5 responses than Chi square test is not applicable. The author still use Chi Square test in many variables including "have you any children?" "Electronic Devices", "Outcome pregnancy from the very first" Age at first marriage. Here, author(s) can run Fisher's exact test. There is serious concern about logistic regression model. Author adds all variables in this model that are already show insignificant at Bi-variate Analysis. Author must do this regression those variables show only significant at Bivariate analysis. Author should also provide model fit summary.	
Minor REVISION comments		
Optional/General comments
